Dear Mother + Father:

The delayed letter was one I forgot to mail and found in my notebook. "Scuse" me!

I am writing this in Ec lecture. Was that where you used to write letters, Mother?

I have a full day today again, with lab. at 4:15 the squad and committee have their pictures taken for the Vassarion.

I had a good sleep last night again. I think I'll manage not to [overtax] my strength, Mother, as long as I can rest up over the week-ends this way. Are you coming up here, Father?

Love

Fannie
