

Dear people: -

I am terribly sorry but this will have to be just a scratch again. Sunday you shall have a nice long letter. More things have been piled on us this week. Monday afternoon came the play, so that we were behind hand on our work for Monday. Tuesday came a match game

between us and the juniors in which we were beaten, which made us behind hand in our work for Wednesday. And Wednesday we had to get in our essays and prepare prose for today, and the prose was the worst stuff we have ever had. Further this afternoon we have got to have the class picture taken and go to a game between juniors and

seniors. They say it takes an endless time to have the picture taken. So late I be. And I have 3 lessons to get for Friday with no time beforehand in the morning. He. He. You understand my state. But what do you think we have finished advanced work in Trig. Isn't that fine. Think the last match. I shall ever have to do.

well the luncheon bell rang

lovingly
Ruth
