

Dear Mother + Father,

Nov. 8 I heard about the accident at last. Lucy saw her father in N.Y. + he told her about it. You surely had a lucky escape.

I worked a lot over the week- end, and have a lot to do this week. It is the time of mid-semester. You know what that means. Spanish [comes] Wednesday. Ec Monday a week, and two topics due the end of this week. Also lab quiz today and French Shoe Drive the end of this week. Wishing you more leisure than I have,
