Dear Mother + Father |

"You're a wise lady"! I showed Miss S. your special + put the case to her absolutely truthfully. She brought it up in warden's meeting today + permission was granted to get there Wed. night. She said she preferred my cutting only one class, and I cannot make the three train. It really makes no diff. to me. I don't want you to meet me, either. I really mean that. I'll take the bus from the station in A.C.

I wired you right after lunch. I didn't last night, because I had nothing to report. Miss S. was a peach about it.

The straw suitcase came - also the [check-bks]. Thank you.

It looks as tho I have to leave A. C. at 9:10 Sunday. Unless there is something better on the Reading. The latest train I can take from N.Y. is the 6:35. Will you get a chair for me for Sunday, please. You would know about the Reading + I don't that's why I won't attend to it myself. have ordered chair for Wed. Love, Fannie
