

[postmarked 5 March 1923]

Dear Mother, Father, and Pete:

Thanks for the dope, Father. It will be very useful. What is your personal opinion on the subject?

I am glad you were successful with your speech, Pete. Mother, you had better take to the platform, too!

Mother, how much materials ought One to sign up for for a class day dress. I know the exact amount depends on how it is made, but you would have some idea of spring styles, etc. We get the material through the committee.

I have to go up to the Dean's office. The dirty bum has taken me off Census for some unknown reason--I guess dropping a course for health. That means no debating if she wins, but I am going to win.

Pete, are you coming to hear me debate? I thought I would stop to see you on my way home, if possible, That is what I meant by asking the distance from Northampton to Cambridge. However, anything you say, goes.

Loads of people are going to Bermuda for vacation, You see I am full of suggestions!

Now for the huffy dean!!

Love, Fannie
