

1908?

Pokeepsie -
Tuesday P.M.

Dear parents; -

My pen is at Cary's and Grace is using hers here in art class. Pitcher is lecturing -
talking thru his nose -

Grace has told all the doings, I believe.

This morning, I played tennis with

Mabel -

Went to History and Chem- with Grace. At the close of Hist - one of the girls fainted She
was nervously broken down and tired and had not been to see a doctor. Grace and
another girl started for water and the doctor arrived soon -

Have seen most of the girls I knew best and they have all been

dear -

It is so hot, and green here - I did think I might feel sort of queer going to N.Y. in my
winter suit and it will be a week later than I planned to go, so we looked here and found
a stunning suit - greenish, grayish, blueish do you get the color?! It was a \$35.00 suit
but they let us have it for \$30.00 including repairs because they are having a sale of
suits this week - They said it was an advance model - It's a beauty - I also purchased a
petticoat - The place is Greenes. They used to have a shop on Mill St. and made
nothing but tailored garment. Now they are on Main St. and sell ready made garments -

Your candy and case

were luscious, momie - Lovingly, M'g't -
