

Capt. Jasper Parrish

First included is another number of the Farmer which I wish you to hand to M. Gould and Bernier for publication and at the same time the included \$15- One is good as to intent them if possible in our course, which in this instance may truly be paid to the course of the people.

If they should see any single errors in the piece I shall not be displeased to have them corrected- you know one may inform them that I am always crowded with ... can find but little time to write even to my friends- and none to write & correct a piece for public inspection. But I rely more upon the facts which I have stated. Than correct or I am with ...
